

# Custom Online Training Service

## Increase efficiencies while saving time and money

- ✓ Easily build a library of custom online training courses to meet your organizational needs
- ✓ Streamline your employee training program with an automated training solution
- ✓ Save your organization valuable time and increase your training efficiencies to avoid costly training expenses

## How the Custom Online Training Service Works

- ✓ Simply provide existing PowerPoint materials—we convert to automated online courses.
- ✓ Great for new hire training, company-specific policies and processes, and other recurring communication requirements.
- ✓ Custom online trainings are available through an easy-to-access Learning Management System.
- ✓ Convenient online training courses allow employees to learn at their own pace, location, and schedule.
- ✓ Interactive format with embedded quizzes ensures employees learn and retain important knowledge.
- ✓ Optional multimedia elements (voiceovers, video segments, etc.) can be used to demonstrate content and encourage learning.
- ✓ Assign, schedule, and record results automatically through Training Track™.
